JOHNNY WONDER

Q. "HOW DOES A PENCIL BRASER BRASE?"

GENA KNAPP, OF LAUREL, IN., WINS A PRIZE FOR THIS QUESTION.

A. When you write with a pencil, it leaves tiny bits of pencil lead (actually graphite) on the paper. If you make a mistake, you can erase the pencil mark with the rubber eraser on the other end of the pencil. When you erase the pencil mark, you rub off tiny bits of the eraser, too. As the eraser scrubs the pencil mark, it gradually crum-

bles away, carrying off the bits of pencil lead that stick to it. Eraser tips were first used on pencils in the mid-19th century. In fact, rubber gets its name from its early use as an eraser to "rub" away pencil marks.

You can win a World Almanac if your question is selected. Send your name and age to JOHNNY WONDER, c/o this newspaper, P.O. Box 1250, Santa Cruz, CA 95061.
